Beautiful villa for sale in Capistrano Village. The house is divided into 3 areas: Separate living room with entrance from the garden. On the ground floor is the large garden, a terrace area, living room-kitchen. On the second floor we find the bedrooms and the bathroom. The house has beautiful views from both floors. It enjoys a great location, with parking and swimming pools very close by. It would be very easy to make a third bedroom in the separate living room.
