They have a SOUTH orientation and sea views. Their ascending topography allows by regulation that the garages (and other rooms of the homes) are at street level (level 0), and the main floor of the homes at 3 m above the street, which benefits both the views and the privacy of the homes located on level 1. which is, I repeat, 3 meters above the street. The EAST and WEST plots are on the corner and therefore have 3 facades and a single party wall. The central plot is located between the previous ones and therefore has 2 facades and 2 party walls. Each house has an...(Ask for More Details!)
