Welcome to your new home in this modern residential development, which combines contemporary comfort, solid build quality and energy-efficient features. The development impresses with its well-thought-out design, bright living spaces and high-quality materials, which create a pleasant living environment. The properties are being built using a solid reinforced concrete structure and feature an attractive façade with a monolayer finish. Generous windows with PVC external frames, thermal breaks and double glazing ensure good thermal and sound insulation, as well as plenty of natural light in the living areas. Inside, you'll find a modern and low-maintenance living environment. The living areas are fitted with synthetic flooring, whilst the bathrooms and toilets are...(Ask for More
